

PRODUCT REPLACEMENT

OHAUS has Recently Acquired Troemner, Including the Popular Talboys line of Laboratory Equipment which had Private Labelled PRO Scientific's Hotplate Stirrers

As we move forward, OHAUS will be refreshing these products with a new look, while still maintaining the integrity and quality you've come to expect from the PRO Scientific labelled equipment. Though these products may have an updated design, please be assured that they are direct replacement, offering the same functionality and dependability you rely on.

PRO Scientific Labelled Product

Talboy Labelled Product
